NEXWAVE ERP

QuickStart Programmes

QuickStart (3-Day Programme)

Duration: 3 days full

System Configuration: Basic configuration aligned to your business structure and needs

Chart of Accounts: Loading of Standard Chart of Accounts

Process Flow Training: 1 day of handson process flow training for your key users

Ideal For:
Small Teams (Max 5 Users) needing rapid standard deployment with essential fixes and core process training.

Benefits:
Fast setup, foundational knowledge transfer, immediate usability.

QuickStart Plus (5-Day Programme)

Core QuickStart: 5 days with system config, chart of accounts, and process training

Master Data Loading: Includes setup of:
- Customers
- Contacts
- Suppliers
- Items
- Bill of Materials

Ideal For:
Small Businesses (Max 5 Users) needing a semi-automated system configuration and data import to reduce manual efforts

Benefits:
Reduced data entry errors, faster go-live, streamlined onboarding

Feature	QuickStart	QuickStart Plus
System Configuration	✓	✓
Standard Chart of Accounts	✓	✓
Process Flow Training (1 day)	✓	✓
Customer Data	✗	✓
Supplier Data	✗	✓
Item Data	✗	✓
BOM Data	✗	✓

Recommended For

QuickStart: Ideal for smaller businesses or those with minimal legacy data, looking for a fast ERP kick-off and core process training.

QuickStart Plus: Best suited for smaller companies ready to accelerate deployment by batch uploading foundational datasets, saving valuable time and resources.

Common Benefits (Both Programmes)

Fast Deployment: Full system configuration within 3 or 5 days.

Training & Adoption: Focused training ensures users are operational and confident.

Solid Foundation: Establishes chart structure and process understanding from day one.

Scalable Path: Serves as launchpad for ongoing ERP modules (e.g., Hire, Field Service, ecommerce, Point of Sale & HR) later

About NexWaveERP

NexWaveERP delivers an integrated, modular ERP on the lowcode, opensource platform—covering accounting, inventory, manufacturing, POS, procurement, and more with realtime dashboards and reports .

Next Steps

1. Choose the programme that matches your current data readiness:
   -QuickStart: No bulk data to import
   -QuickStart Plus: Requires master data (customers, suppliers, items, BOM)
2. Coordinate with the NexWave onboarding team to schedule your kickoff.
3. Leverage the foundation to expand into the other advanced areas of NexWaveERP
